FOUNDER'S MESSAGE

The world is changing at a breakneck speed. With children growing up in such an exciting, fast-paced environment, we at EtonHouse feel a great need to secure their success in the unknown future. Knowledge alone will not ensure that our young ones will grow up with the competence and skills to adapt to disruptions and conquer what the future holds. Inspiration, creativity, empathy, critical thinking and problem-solving skills are hard to nurture but absolutely essential for the future.

As a mother of three, I understand the challenges that parents face. I remember fighting battles with my children's schools, where educators were determined to mould compliant children according to the norm. Children's thoughts are the purest, most creative and awe-inspiring. Why should we change them? We should instead listen to them, respect them and nurture them.

“ Children's thoughts are the purest, most
**CREATIVE AND
AWE-INSPIRING.** ”

Creativity should be celebrated in schools, not stifled. That was my dream many years ago when I started EtonHouse. It continues to motivate me. I often meet EtonHouse graduates who are now in the workforce doing the most amazing things; be it in music, art, research, finance and many more professions. More importantly, what touches me is that they have all grown up to be respectful, happy and confident individuals.

My message to all past, future and current EtonHouse parents is to celebrate the wonders of childhood, nurture creativity, and be a part of an inspiring learning journey with your children.

Mrs Ng Gim Choo
Founder

PRE-SCHOOL

(18 months - 6 years old)

An integrated inquiry programme that nurtures your young ones to become lifelong learners

- EtonHouse 'Inquire, Think, Learn' curriculum
- International Baccalaureate Primary Years Programme (IB PYP)
- Bilingual foundation with Chinese as a life skill

Empowerment of your children to take ownership of their own learning; building on skills nurtured in their early years so that they develop their own ideas, concepts and creations

- International Baccalaureate Primary Years Programme (IB PYP)
- Strong and genuine second language programme in Chinese, Hindi and Japanese

An internationally recognised programme that supports your children in developing their skills and knowledge to succeed in the future

- Cambridge International General Certificate of Secondary Education (IGCSE) Programme
- Robust second language programme in Chinese, Hindi, Japanese and Spanish

AN OVERVIEW OF ETONHOUSE SCHOOLS IN SINGAPORE

EtonHouse provides a comprehensive education pathway for your children, from the early years through to Secondary school. The pathway begins with programmes offered either in a Singapore or International Pre-School setting. After your children complete their Pre-School education in either setting, you may enrol them at any EtonHouse school with Primary and Secondary Programmes. This will allow a seamless transition from one learning phase to the next within the EtonHouse community.

VALUING YOUR CHILDREN'S UNIQUENESS AS A GIFT AND OPPORTUNITY

EtonHouse is a community of learners who embrace the Image of Child philosophy. We respect every child as a curious, communicative, capable, confident and respected individual. Recognising that this sense of wonder defines every child's attitude towards learning, EtonHouse adheres to an inquiry-based approach to learning through the 'Inquire, Think, Learn' programme.

Aligned with international best practice, our Pre-School curriculum builds up your children's mathematical, scientific and technological capabilities so that they can take full advantage of our inquiry-based approach. We also focus on language and literacy programmes to transform your children into effective communicators via print, digital, visual and other artistic platforms. With our second language learning programmes, your children will have a myriad of opportunities to communicate with ease in English and Chinese.

PRE-SCHOOL CURRICULUM

INQUIRY AS THE PREMISE FOR LEARNING

Optimising your children's brain development from their early years is critical to learning for life. EtonHouse leverages the inquiry approach, which encourages your children to imagine, innovate, invent and collaborate.

This approach develops all the necessary skills and disposition required to succeed in the 21st century. With their teachers' facilitation, your children will have multiple opportunities to expand their knowledge and grow their confidence in tackling more sophisticated and complex discoveries.

THE 100 LANGUAGES OF CHILDREN

Spoken language is just one of the many methods that children use to communicate their thoughts. In EtonHouse Pre-Schools, the Arts provide unique possibilities for your children to express themselves confidently and creatively.

Learning invitations are intentionally planned in order to captivate their wonder and curiosity, develop their understanding and enhance their engagement. Our specialist and classroom teachers support the Arts programme in innovative ways that nurture the '100 languages of children'.

OUTDOOR LEARNING IN TOUCH WITH NATURE

An integral part of an EtonHouse education lies in giving your children access to world-class education. This means nurturing active physical engagement and nature-based learning from their early years. Our innovative programmes on the other hand, lay the foundation to ensure healthy bodies and minds thrive. We nurture your children's respect for the environment and appreciation of their role in caring for our planet.

ENVIRONMENTS THAT INSPIRE

Your children learn from you, their peers and teachers, and through interactions with their environment. Honouring EtonHouse's Image of Child, our curriculum creates and organises environments that respect your children's ideas, cultures, interests, as well as beauty and order. Learning spaces are inviting, flexible and natural, inspiring your children to explore their surroundings. Thoughtfully designed and richly resourced, our environments extend and challenge your children's thinking in relation to their learning goals.

“ Our task, regarding creativity,
is to help children

**CLIMB THEIR
OWN MOUNTAINS,**
as high as possible.
No one can do more. ”

Loris Malaguzzi, Founder of Reggio Emilia schools

CHALLENGING STUDENTS TO FULFIL THEIR TRUE POTENTIAL

EtonHouse International Schools are accredited 'IB World Schools' offering the International Baccalaureate Primary Years Programme (IB PYP). The IB PYP is an integrated, transdisciplinary curriculum that focuses on the development of the whole child, encompassing social, physical, emotional and cultural needs in addition to academic welfare.

By adopting an inquiry-based approach, we support your children to develop an understanding of important concepts, acquire essential skills and knowledge, develop particular attitudes, and learn to take socially responsible actions. The Primary Programme builds a strong foundation in your children's early years. It offers them challenging and hands-on experiences to acquire knowledge, skills and attitudes - placing special focus on the IB Learner Profiles; attributes that develop internationally-minded learners.

PRIMARY CURRICULUM

COMMUNITY

There is a distinctively warm community feel that is unique to each EtonHouse school. Every teacher knows every student. This translates into an environment where your children feel valued in the classroom and also within the school community. Learning is differentiated to cater to the unique interests, abilities and learning styles of each student. Your children are encouraged to become independent and self-motivated learners in an environment that is safe, inviting and challenging at the same time.

TRUSTED CURRICULUM

Delivered over the past two decades, the EtonHouse Primary Programme is a trusted programme in international education. Our success lies in a curriculum that delivers the disciplines in an authentic and relevant context for young learners. Your children are exposed to innovative and diverse experiences that hone their social, communication, self-management, research and critical thinking skills.

STRONG SECOND LANGUAGE FOUNDATION

As one of the first international schools to offer bilingual programmes, it is little wonder that EtonHouse's additional language and mother tongue language programmes – in Chinese, Hindi, Japanese and English – are among our several strengths. These programmes provide a rich context for language learning. Couple that with our exploration of cultures through the lenses of the different languages, we provide a wonderful opportunity for your children to develop as international-minded students.

DIVERSE SPECIALIST PROGRAMMES

Our specialist lessons support classroom inquiries to ensure the holistic and integrated development of your children.

ART allows your children to explore a range of artistic processes using both traditional approaches and contemporary platforms. Taking a more conceptual approach, our arts programme stimulates innovative and imaginative thinking.

MUSIC is integrated into the mainstream curriculum to promote self-expression, intelligence and creativity. Through a holistic music education, your children will explore traditional and exotic instruments while they themselves develop their music literacy, create music and use technology to produce music videos.

DRAMA gives your children the opportunity to perform on stage and showcase their unique abilities. This builds up their public speaking skills, as well as emotional intelligence and empathy. Your children will also learn script writing, stage production, lighting and sound – all the elements of a successful production.

SPORTS programme includes football, basketball, archery, track and field, netball, cricket, swimming and more. Your children will enjoy the opportunity to get involved in a variety of sporting events as a way to develop their confidence, resilience, grace and humility to succeed and work as a team.

ICT is integrated into the curriculum allowing your children to develop communication and performance skills through coding, programming, multimedia authoring, animation, 3D gaming and more. With these digital tools, your children will be able to actively and effectively engage, create, collaborate, communicate and share their perspectives – lifelong skills that will support their education and their future careers.

“ LOGIC
will get you from A - Z.
IMAGINATION
will get you everywhere. ”

Albert Einstein, Theoretical Physicist

LAYING THE FOUNDATION FOR EVERY STUDENT'S SUCCESS

Over the years, EtonHouse has developed a culture of academic rigour, caring and individualised support for students in their Secondary Years. We apply a fusion of proactive use of information technology and inquiry-based learning to the development of essential skills.

Our curriculum meets the stringent requirements for completing the robust Cambridge-approved International General Certificate of Secondary Education (IGCSE) Programme undertaken in Years 10 and 11. Developed by Cambridge International Examinations, the IGCSE is the world's most popular international qualification for 14- to 16-year-olds (equivalent to the Cambridge O Level in Singapore).

SECONDARY CURRICULUM

STUDENT-CENTRIC LEARNING

EtonHouse students are at the centre of everything we do. They help shape our curriculum. We encourage them to choose their own projects as this method helps develop highly engaged learners with groundbreaking work. Also, our class size has a rich teacher-to-student ratio to ensure that your children receive more personalised academic and pastoral support.

INTERDISCIPLINARY APPROACH

Committed to a fluid interdisciplinary approach to education, EtonHouse's boutique Secondary school environment ensures that learning objectives in one subject flow into others, consolidating learning and allowing your children to make personally meaningful connections through experiential tasks.

SKILLS-BASED TRAINING

Right from the get-go, EtonHouse puts your children on the path to examination success. Through bi-annual assessments, mock examinations, study skills sessions and study instructions, your children can develop both confidence and knowledge as they prepare for their IGCSE examinations.

ROBUST SECOND LANGUAGE FOUNDATION

EtonHouse has a highly successful second language programme that has been nurturing truly bilingual learners for decades. In the Secondary level, we build on the strong second language foundation in your children's early and Primary Years. At the IGCSE level, your children can choose from other Asian and European languages.

WELL-ROUNDED SPECIALIST PROGRAMMES

SPORTS

The Secondary Sports Programme focuses on both competitive sports and health education. Your children have the opportunity to develop different tactics and skills, and understand the value of nutrition, mental agility as well as the impact of drugs in sports. Outdoor activities such as kayaking, rock climbing, archery and self-defence are also available.

VISUAL ARTS

This programme builds on the strong arts foundation in your children's Primary Years. Projects may include exploring Propaganda Art, studying self-portraits using different media, understanding design-to-create processes, working with clay to fully appreciate their study of the Renaissance, or discovering art through history, from cave art to contemporary design.

ICT

Through robotics and programming, your children are able to enhance their logical thinking, problem-solving skills and work management styles. ICT covers 3D design, spatial awareness and intelligence, and engineering so your children can build their own prototypes. They also learn how to become responsible citizens who leave behind a positive digital footprint.

MUSIC AND PERFORMING ARTS

Secondary students enjoy several opportunities to be involved in school events such as the end-of-year production, school choir and other events throughout the year. Visiting artists and competitions help test your children's skills. They also learn how to play different musical instruments and create their own compositions.

“ THE BEAUTIFUL THING ABOUT LEARNING

is that nobody can take it
away from you. ”

B.B. King, American Blues Singer

COMMUNICATING FLUENTLY AND EFFECTIVELY

Our language programmes have been very successful through our commitment to innovation and best practice. Delivered in a bilingual environment at the Pre-School level, with a bilingual stream option in the Primary Years, our EtonHouse Chinese language programme offers cultural immersion and learning experiences in language acquisition. That is why language learning includes elements of history; geography and current affairs; philosophy; literature and the arts; and traditions and lifestyles. These experiences make your children truly bilingual and respectful towards other languages and cultures.

Those looking for an intensive Chinese language education in the early years should consider EtonHouse Zhong Hua Pre-School. Additional English language support is also available as an Additional Language (EAL) programme. Other language programmes include Japanese, Hindi and Spanish.

Embracing languages as a community, EtonHouse invites you to participate in a wide range of cultural activities.

KEY MILESTONES OF ETONHOUSE

First EtonHouse school opened on Broadrick Road in the East Coast, in Singapore

1995

1

EtonHouse Broadrick awarded the IB World School status
